Introduction

'*Satya Sansar*' Reale World is an NPO that nurtures human resources that can act with the aim of realizing a diverse society full of hope.

All people accept each other's "differences" and Use their "variations" to build a peaceful world.

Behind real world activities the problems facing our society

The Challenges

Limited communication: Open and honest conversations between adults and children are crucial for growth, but these spaces are often lacking.

Global disconnect: In our fast-paced, globalized world, fostering mutual understanding can be difficult.

Restricted potential: Circumstances like birthplace and environment can feel like boundaries, limiting a person's potential.

Information overload: The abundance of information can be overwhelming, making it hard to focus and set goals.

Our Vision: A Society Full of Hope and Possibility

We envision a society brimming with diversity, where everyone feels empowered to reach their full potential. This world would be characterized by:

Meaningful communication: Creating spaces where children and adults can have open and honest conversations is essential.

Building bridges: Encouraging understanding and appreciation of different cultures and backgrounds is key to navigating an interconnected world.

Unleashing potential: We believe that everyone, regardless of origin, has the chance to thrive.

Clarity and purpose: In a world filled with information, we aim to empower individuals to find their own direction and set goals.

This future is full of hope, where everyone can believe in themselves and flourish in any environment.

Mission:

To empower individuals of all backgrounds by unlocking their potential and fostering a vibrant, inclusive society through strategic human resource development.

Action (Activity Phase)

Taking Action: From Local Roots to Global Impact

Our Journey Begins Here:

We're excited to embark on this mission, starting right here in Madhyapur Thimi and expanding to Bhaktapur. This local foundation will be the springboard for our impactful programs and projects.

Beyond Borders:

Our vision extends far beyond Nepal's borders. We aim to develop and implement these initiatives not just locally, but across the globe, fostering a truly international impact.

FC REALE GROUND

For eleven years now, the FC Reale ground in Madhyapur Thimi, nestled in Bode Sintitar, has been a magical haven for thousands of children. It's more than just a pitch; it's their home away from home. The kids themselves take pride in keeping their beloved ground looking spick and span, no matter the season. Every morning, the ground buzzes with the joy of practicing soccer – a symphony of laughter and determination. But the magic extends beyond FC Reale. The ground serves as a welcoming open space, where anyone can come and enjoy the freedom of physical activity. Evenings see it come alive with kids weaving their soccer dreams under the golden glow of the setting sun.

To make this dream a reality, we have a dedicated store for training materials, a sparkling clean public toilet with fresh water, and a drainage system that tackles the rainy season with ease. During the dry months, our coaches give the ground a good drink, keeping it in top shape. The children, with their infectious enthusiasm, contribute by collecting any plastic or weeds that might find their way onto the pitch. We're also incredibly grateful to our amazing supporters from Japan who helped us fence the ground, adding another layer of magic to our special place.

Cleaning weeds during Rainy Season

REALE FOOTBALL ACADEMY

In consideration of family circumstances, the monthly fee is either minimal or free so that even children from poor families can participate. Since there are many families who find it difficult to purchase soccer equipment, shoes, jerseys, etc., we provide necessary supplies from Japan. Our goal is to create a place where children can experience, through soccer, that anyone can do anything regardless of their circumstances, regardless of nationality or race.

REALE CUP 2023/24

Reale World and Beyond Borders with football (SEEDS), transcended mere competition, becoming a bridge of cultural understanding and lasting friendships – U15 Reale Cup 2023!

This year's (023/024) theme was "YOUTH DEVELOPMENT" for sports culture. Reale Cup 23/24 (also Reale Youth Development League) was focused on bringing the sports culture in the local community as to aware the need of active lifestyles, physical and psychological development in kids, & need of open spaces for healthy community with a competitive tournament involving different academies and schools.

HERO PROJECT ZERO

FC REALE Senior Team participating in Lahan Gold Cup

Reale World promotes hero projects in various forms, one of which is "Hero Project ZERO" in Nepal. It is a project to develop Satya Sansar Reale FC from a completely zero state into a professional league team in Nepal. SS Reale FC is a team consisting of FC Reale Nepal players over the age of 15, graduates and coaches. Seeing them working hard and taking on challenges will inspire children and local people to take on new challenges. Hero Project is a project to change the future. At the moment, SS Reale FC's goal is to enter the C division (J3 in Japan). It is true that behind their success is their own efforts, but it is only with the support of the Japanese people that they are able to practice and take on challenges. Thanks to everyone's support, we are able to cover the expenses for soccer equipment, training equipment, and practice matches. thank you very much. The barrier to promotion to the C division is quite tough, but SS Reale FC continues to challenge. All of them will show the results of their practice so far and hope to play with all their power. Thank you for your continued support for "Hero Project ZERO". As ANFA could not organize tournament for qualification to professional league this year, Reale Senior Team members challenged themselves in various professional leagues!

Hero Project in Nepal

FC REALE Hero Rohan Starts for NRT In 'A' Division League Nepal

Our efforts to empower children revealed a crucial aspect: the influence of their surrounding adults and young adults. These individuals act as daily guides, shaping the children's path. The Hero Project addresses this need by fostering role models who can inspire and mentor the children. This initiative aims to illuminate a brighter future, guiding the children's well-being and way of life towards a more positive trajectory.

Urawa Reds at Reale School - SMS

A heartwarming cultural exchange takes place at FC Reale. Japanese supporters visiting from abroad experience the resilience of Nepali children growing up within the program despite hardships. In turn, the children are inspired by the unwavering support these "guardian angels" offer, motivating them on their journey to become well-rounded individuals.

World Friend Project

The goal is to create international interactions between children, and to expand their perspective through these shoes.

Which can be an opportunity to attain the importance of mutual understanding, and feelings of gratitude and compassion.

- An opportunity to pursue their dream by receiving soccer shoes.
- To gain power and make effort by feeling the sense of friendship in far away country cheering for their life.
- To prevent them from abuse of alcohol and drugs by giving them an opportunity to focus on sports activity.
- An opportunity to think about the difference between developing country and developed country.

REALE COACHES

By equipping coaches with global knowledge, FC Reale empowers them to become agents of change. This fosters a ripple effect, impacting both local youth and aspiring national players. Through this initiative, FC Reale cultivates not just talented footballers, but well-rounded individuals who embody the club's core value of authenticity. Reale coaches actively mentor younger coaches, sharing their knowledge and experience. This creates a knowledge-sharing environment, ensuring a continuous learning cycle that benefits both coaches and, ultimately, the children they guide.

Online Lectures and Interaction

Ryuichi Okada educates about valuable insights and practical guidance for athletes seeking to optimize their nutrition and performance and the importance of center of gravity in achieving optimal athletic performance.

Reale Coaching Workshops - Reale Youth Development

Head Coach Bal is leading a program to educate teachers from various schools on using traditional games to promote physical development in children and coaches in football academies about long term player development. This program aims to create a foundation for long-term player development in youth academies and equip young coaches with the skills to foster overall well-being in children, incorporating global best practices.

REALE KIDS MEET 2023

REALE kids in Japan and Nepal. There are two main purposes. One is to let both children feel they are in the same REALE family even staying far away from each. Another is to broaden their outlook and update their sense of values by communicating with children living in completely different environments. Furthermore, they had a big challenge to communicate in English this time !

REALE SCHOOL PROJECT

The REALE SCHOOL PROJECT is an initiative dedicated to promoting the importance of physical education (PE) in local communities. Our mission is threefold:

•Improve overall health and fitness:

•We aim to raise awareness about the vital role PE plays in maintaining good health and physical fitness for people of all ages.

•Ignite a passion for athletics:

• We strive to inspire young Nepalese people to discover the joy of athletics and its potential to benefit their lives.

•Develop a strong player pool:

• By fostering a love for physical activity, we hope to create a robust pool of talented athletes who can contribute to the success of Nepalese sports.

However, we recognize that traditional PE often remains confined to textbooks and classrooms. The REALE SCHOOL PROJECT seeks to change this by actively engaging children in a variety of physical activities relevant to both daily life and athletic pursuits. By instilling these habits at a young age, we believe we can make a lasting impact on the health and athletic potential of Nepalese youth.
